Now is the ideal time to update your CRM to a modern **Home Healthcare Scheduling** solution in less than 30 days with a low-risk, low-cost, rapid time-to-value deployment.

In response to the onslaught of pandemic related financial & resource challenges, Alithya has announced its Healthcare Respond, Recover and Reimagine program that provides cost-efficient marketing, physician relationship management, omnichannel customer service, and home-healthcare scheduling solutions.

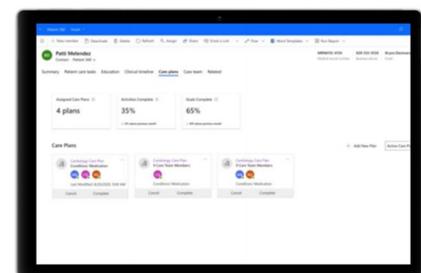

Now is the time to invest in modernizing the Patient & Remote Care Provider Experience, but how do you do that responsibly? An industry first, these unique, limited-time packages minimize your risk with a cost effective, fixed-fee engagement developed with the knowledge gained over decades of home healthcare scheduling experience & resource optimization CRM deployments.

Developed with the mandate of responding now vs. months from now, go live in 4-5 weeks with our Microsoft Dynamics 365 CRM built for Health and Life Sciences.

Microsoft Platform Value

Dynamics 365 offers a suite of apps that enable cost-effective decision making, and scale with you in the future.

For example, you can add apps like **Dynamics Customer Insights** that improve patient acquisition, retention, and target marketing; exponentially increasing your ability to digitally engage healthcare consumers for:

- > Patient Communications
- > Vaccination Scheduling
- > Postponed Routine Care
- > Elective Rescheduling

Address Current Practice/Business Challenges

Many of our healthcare clients are facing these challenges. If you can relate to the following, the **Dynamics 365 Home Healthcare Scheduling** package was created specifically for your healthcare organization.

- > Manual service scheduling
- > Our staff is not adequately equipped to work remotely
- > Our staff needs to be equipped to efficiently deliver "zero contact" service
- > Our systems are not accessible remotely or via mobile
- > We need better visibility into home healthcare operations and scheduling
- > We need to manage operational cost by automating processes
- > We need access to connected patient contacts, procedures and physician referral information
