

Energy IT Solutions

Benefit from Deep Domain Expertise

Alithya has delivered hundreds of projects and solutions to the Energy industry with a proven history of success. We combine technical skills with deep domain expertise to provide the nuclear and power generation industries with high quality solutions tailored to their business needs. Our IT expertise spans from project management and business analysis, to custom application development.

Trusted Control System Partner

Our unique mix of integration experience, regulatory and cyber security compliance expertise, and extensive domain experience sets us apart from other control system integrators. At Alithya, we not only deliver turn-key control systems, but also integrate technologies from the control room to the board room to meet your digital transformation and IIOT needs.

System Integration

We offer seamless integration with ERP, asset management, scheduling and data historian systems key to driving business efficiency, including:

- > SAP
- > Maximo
- > PassPort
- > eSOMS
- > Primavera
- > PI

Data Platform & Analytics

- > Big Data and Machine Learning
- > Analytics and Reporting
- > Data Integration - Cloud and On Premise
- > Database Design and Development
- > Master Data Management
- > Data Quality

CASSI™

Analytics and Reporting for Work Management and Equipment Reliability

Domain Expertise

Alithya understands that technical skills are not enough – you need the domain expertise to back it up. We carry a wealth of experience in a wide range of areas including:

- > Work Management
- > Worker Protection
- > Equipment Reliability
- > Energy Markets
- > Supply Chain
- > PMO
- > Inspection and Maintenance
- > Financial Reporting
