

EAMXpress

Experience Rapid Deployment, Faster Time to Value

Decrease Implementation Time for Microsoft Dynamics 365 for Operations

Based on experience across hundreds of shop-floor implementations, Alithya developed EAMXpress, a tested and proven **asset management template** tailored for manufacturing asset management and maintenance.

It uses **leading industry scenarios** to move your project forward while keeping costs and timelines under control. We created tools tailored specifically to the manufacturing industry to use with our proven implementation methodology for an efficient system deployment.

EAMXpress

PRE-CONFIGURED DATABASE

A **preconfigured database** includes core manufacturing processes like: maintenance requests, corrective and preventative maintenance, and spare parts management, all optimized to reflect the reality of a modern manufacturing company.

80 BUSINESS PROCESS

A comprehensive business process model incorporating **over 80 business processes** focused on a manufacturing company that supports **industry-specific implementation activities**, training and workshops.

CLOUD-BASED TOOLSET

A proven implementation approach, fully utilizing Microsoft Lifecycle Services and a **cloud-based toolset** to ensure consistency, predictability and a shortened timeline.

60+ DETAILED TASK GUIDES

Step-by-step instructions that can also be run as **automated guidance** to walk users through daily processes of regular operations such as maintenance scheduling and work orders. .

A Schedule For Success

Alithya has bundled leading business processes into EAMXpress, a pre-defined asset management template with specific data sets and parameters. Our compact timeline, combined with EAMXpress's pre-configured infrastructure, toolset and sample data, provide an easy place to start a shop-floor implementation—eliminating costly hours of analyzing and training. Using our pre-built environment, you can see how Dynamics 365 works using your actual data and showing your actual products. Our pre-recorded task guides also increase user adoption by allowing users to quickly take ownership of their processes.

Typical Asset Management Requirements

- > Asset lifecycle management
- > Preventative maintenance
- > IoT-driven predictive maintenance
- > Condition monitoring
- > Work order management and scheduling
- > Warranty management
- > Spare parts tracking
- > Cost controls and budgeting
- > Asset management analysis
- > Capacity planning

The Xpress Methodology

Streamline a majority of your processes and get up and running quickly in your new Dynamics 365 environment, eliminating the long analysis period.

Integrate any unique processes not previously addressed by our templates.

Optimize processes and fully leverage all the benefits of your historical data for fast business intelligence reporting across your organization.

The Alithya Difference

Alithya delivers innovative Microsoft Dynamics 365 for Finance and Operations solutions and services to process and discrete manufacturers. Our award-winning company is one of the largest resellers of Dynamics 365 for Finance and Operations in North America, with over 20 Microsoft Partner Awards.
