

# Alithya's Regulatory Reporting Integration Services

## Here to Solve Your Regulatory Reporting Data Needs

With financial services firms under extraordinary scrutiny from governing bodies, the complex nature of regulatory reporting has become even more important. Keeping in good standing with the government is every financial services institution's top priority. But with a very unique set of challenges for each institution, it has become extremely difficult to keep up with the ever-changing landscape that is regulatory reporting. The challenges include access to data that is accurate, interpretation of what is being asked, semantic alignment of data, and integration of multiple sources into the institution's regulatory reporting platform.

Alithya's financial services practice provides advisory and implementations services for financial institutions that need help in the regulatory reporting space. Our dedicated staff is here to partner with your institution and make your regulatory reporting process successful, automated, and auditable. At Alithya, our focus is you - our client - and making sure your journey is smooth and successful.

## Service Offerings

Alithya provides service offerings to institutions for proactive risk mitigation of data quality, including:

### Data lineage

Providing leadership to the data life-cycle to simplify error-tracking and mitigate reporting risk.

### Data governance

Providing data stewardship to increase consistency and confidence by defining and delivering audit controls to decrease regulatory compliance risk.

### Data mapping

Simplifying the source system mapping to provide transparency while reducing redundancy and aligning to reporting requirements.

### Alignment to new reporting requirements

As regulatory reporting requirements are modified and front end reporting is updated, Alithya provides guidance to align reporting solutions to ensure trust in data accuracy.

**ORACLE** | Partner
