- Artificial Intelligence and Machine Learning
- Internet of Things (IoT)
Depending on your situation, you may prefer to have your projects developed on-site in your offices, in close collaboration with your internal teams. At other times, trusting an external team to develop the entire project is preferable. At Alithya, we adapt our formula to stay aligned with your goals and your reality.

We offer you multidisciplinary teams whose skills are continuously being developed so we can look at your project from both a technical and a business perspective. And we never lose sight of the change management aspect of things.
