

PharmaXpress

Experience Rapid Deployment, Faster Time to Value

Decrease Implementation Time for Microsoft Dynamics 365 for Finance and Operations

Based on experience across hundreds of implementations, Alithya developed PharmaXpress, a tested and proven **manufacturing industry template** tailored for pharmaceutical manufacturers.

It uses **leading industry scenarios** to move your project forward while keeping costs and timelines under control. We created tools tailored specifically to the pharmaceutical industry to use with our proven implementation methodology for an efficient system deployment.

PharmaXpress

PRE-CONFIGURED DATABASE

A **preconfigured database** includes a fully operational company, complete with core business processes including: record to report, order to cash, procure to pay and plan to produce, all optimized to reflect the reality of a modern pharmaceutical company.

1000 BUSINESS PROCESS

A comprehensive business process model incorporating **over 1,000 business processes** focused on a pharmaceutical manufacturing company that supports **industry-specific implementation activities**, training and workshops.

CLOUD-BASED TOOLSET

A proven implementation approach, fully utilizing Microsoft Lifecycle Services and a **cloud-based toolset** to ensure consistency, predictability and a shortened timeline.

600 DETAILED TASK GUIDES

Step-by-step instructions that can also be run as **automated guidance** to walk users through daily processes of regular operations such as sales/purchasing operations and controls, manufacturing and planning operations, quality control operations, formulations, and regulatory compliance processes.

A Prescription For Success

Alithya has bundled more than 1,000 leading business processes into PharmaXpress, a pre-defined pharmaceutical company template with industry-specific data sets and parameters. Our compact timeline, combined with PharmaXpress's pre-configured infrastructure, toolset and sample data, provide an easy place to start an implementation—eliminating costly hours of analyzing and training. Using our pre-built, transaction-ready environment, you can see how Dynamics 365 works using your actual data and showing your actual products. Our pre-recorded task guides also increase user adoption by allowing users to quickly take ownership of their processes.

Typical Pharmaceutical Manufacturing Requirements

- > Formula focused (not BOM)
- > Quality management
- > Batch order management
- > Batch/lot management
 - > Batch/lot expiration dating
 - > Batch/lot attribute processing
 - > Batch/lot traceability
 - > Batch/lot balancing
 - > Batch/lot merge
- > Contract manufacturing
- > Compliance tracking
- > Production dispensing
- > Electronic batch record
- > Master manufacturing record
- > Approved customers/vendors
- > CAPA & Non-Conformance Processes
- > Electronic Signatures/21 CFR Compliance

The Xpress Methodology

Streamline a majority of your processes and get up and running quickly in your new Dynamics 365 environment, eliminating the long analysis period.

Integrate any unique processes not previously addressed by our templates.

Optimize processes and fully leverage all the benefits of your historical data for fast business intelligence reporting across your organization.

The Alithya Difference

Alithya delivers innovative Microsoft Dynamics 365 for Finance and Operations solutions and services to pharmaceutical manufacturers. Our award-winning company is one of the largest resellers of Dynamics 365 for Finance and Operations in North America, with over 20 Microsoft Partner Awards.
